ABOUT ME

Experienced Frontend Developer proficient in creating responsive web UI designs and integrating them into functional frontends to elevate user experiences. With a strong background in both web2 and web3 technologies, I adeptly navigate the crafting and development of custom components, UI/UX design, and the implementation of innovative digital solutions.

I excel in collaborating with cross-functional teams, contributing to bug fixes, and achieving project objectives. My commitment to code improvements has demonstrated success in fostering effective teamwork and delivering high-quality results

WORK EXPERIENCE

Code3camp

Senior level | Mentor
Nairobi , Kenya
2023-09-01 | Currently working here

Guided students through a comprehensive journey from Web2 to Web3 technologies, empowering them to become proficient full-stack developers. Leveraged ReactJS and NextJS for frontend development, integrating decentralized technologies to foster a deep understanding of the emerging paradigm. Additionally, I helped generate revenue and ensure the overall success of the program.

NGENI LABS

Mid level | frontend engineer
Nairobi , Kenya
2022-02-01 | Currently working here

As a professional frontend developer, my primary tasks and responsibilities include designing and implementing user interfaces using HTML, CSS, and JavaScript frameworks such as

React. I collaborate with UX/UI designers to translate designs into interactive, responsive, and accessible web applications. I also ensure cross-browser compatibility and optimize web performance. My role involves writing clean, maintainable code, conducting code reviews, debugging issues, and staying updated with the latest industry trends and best practices to continually enhance the user experience and functionality of web applications.
